Test Drive new automotive technologies! 4:00-4:30

Greening Government Conference
May 23rd Agenda

MAY 23 TUESDAY 7:30 am – 3:30 pm

Getting Started Greening Your Facilities:

Using LEED EB to Improve the Bottom Line

You've heard about green cleaning, energy management, construction waste recycling, environmentally-preferred materials and more! Where should you start? Join us for a day of practical guidance to help you get going. This session will show you how to use LEED for Existing Buildings (LEED EB) as a tool to help save money and improve the effectiveness of your operations. Find out about procedures and tools already developed for the first three LEED EB state demonstration projects. Learn how performance contracting can jump-start your project, by providing funding for energy and water efficiency improvements.

Presenters: Tia Heneghan of Sebesta Blomberg and Frank Lombardi, Lance Shepherd, Richard Lee of Colorado Division of Personnel & Administration, Joan Gregerson, consultant under contract to Governor's Office of Energy Management & Conservation

AGENDA (Tentative)

Registration & Continental Breakfast

7:30 – 8:00

Overview

8:00 – 8:45

Introduction to LEED EB

Developing a Sustainable Facilities Program

Benefits of a Sustainable Facilities Program

State of Colorado LEED EB Demonstration Projects

Rebuild Colorado: Free technical assistance for State agencies

Easy First Steps: Sample Guidelines and Procedures

8:45 – 9:45

Guidelines Overview

Minimum Standards

Alternative Transportation and Energy

IEQ Impacts

Documenting Successes

Website, tools, resources

BREAK

9:45 – 10:00

Materials & Purchasing

10:00 – 10:40

Waste Audit

Recycling

Environmentally Preferred Purchasing

Examples

Green Cleaning Policy

10:40 – 11:20

Cleaning Purchasing

Pest Management

Examples

Green Site Management

11:20 – Noon

Site Characteristics

Irrigation and Landscaping

Examples

LUNCH

Noon – 1:15

Finding the Money: Performance Contracting

1:15 – 1:45

Jump-starting LEED EB Success

How to Combine LEED EB and Performance Contracting

Greening Government Conference
May 23rd Agenda

The Biggest Value of LEED EB

Examples

High Performance Operations

1:45 – 3:00

Commissioning

Monitoring and Measurement

Energy Management

Indoor Air Quality

Water Management

Light Pollution

Examples

Question & Answer Discussion Forum

3:00 – 3:30
